Vision & Mission

OUR VISION

PWWA will be widely recognised and trusted for its integrity, expertise, leadership and influence in the area of sustainable water management.

OUR MISSION

Develop expertise in the Pacific for the sustainable management of water.

OUR GUIDING PRINCIPLES

- o Respect and respond to the needs of our members and stakeholders
- o Encourage greater standardization within the Water Industry
- o Provide cooperative technical assistance
- o Provide integrated industry wide research and communications capability on issues of multi-national, national, public and community concern
- o Promote cordial business relations, ethical principles and good business practices
- o Continually improve the quality of our services
- o Establish alliances with other local and international stakeholders to deliver positive business outcomes

History

PWWA's role has been to support the water industry in the Pacific as it faces continued water resource challenges. Since PWWA's inception in 1995, challenges include the need to address the current professional skills shortage; uncertainty arising from the impacts of climate change; stressed water resources on a regional scale; and water reuse and recycling. These challenges continue today with the added challenge of increasing awareness of these issues to the public.

Secretariat & Board

The PWWA relocated its secretariat offices from Fiji to Samoa in September, 2007.

The PWWA operates the secretariat through KEW Consult Ltd, an engineering consultancy firm in Samoa.

The PWWA is headed by the Executive Board which comprises of a:

- Chairman
- Treasurer
- Secretary
- Allied Representative 1
- Allied Representative 2 and
- Executive Director

Each of the board are elected by the association members and serve for a three year term.
